

WORKERS' COMPENSATION THAT WORKS FOR YOU

When you choose BBSI to meet your workers' comp coverage requirements, you'll get access to all of our available resources and the peace of mind that you've made an investment in the future of your business and the future of your employees.

In today's world of uncertainty, I am certain of one thing, I would not be in business without the relationship we have with BBSI. Not only have they made workers' comp claims, benefits, and payroll operations turn-key, but the personal relationships created with our team for easy onboarding, OSHA compliance, education, and guidance has proven to be invaluable to us as a small business. We owe a big THANK YOU for the knowledge and guidance of our personal BBSI team. If you are seeking a PEO with whom to grow your company with, we highly suggest partnering with BBSI. If I am certain of anything during these times, I am certain of this!"

If you haven't experienced any claims, you should objectively assess whether you are good or lucky. While luck runs out eventually, BBSI will always be there to support you throughout the challenges that come with achieving your goals.

HERE'S HOW WE DO IT:

DEDICATED TEAM

By choosing BBSI, you are matched with a dedicated team of professionals whose focus is de-risking your business and improving productivity and profitability.

RISK MITIGATION

Our risk and safety professionals will help you focus on risk mitigation to reduce workers' compensation claim frequency.

GAP ANALYSIS

Our risk managers develop a blueprint to address critical gaps in your operation, from workplace safety to training and recruitment. The end goal is to help you manage your X-Mod and insurance premiums to increase profitability and efficiency.

PAY-AS-YOU-GO

Our pay-as-you-go model adjusts with each payroll cycle to follow the ebb and flow of your business cycle.

COMPANY CULTURE

We'll help you create a company culture of workplace safety.
