

PAYROLL SOLUTIONS TO SUPPORT YOUR BUSINESS

BBSI

Spend less time managing
your payroll and more time
focusing on success

PAYROLL CONSULTANT

Your BBSI Payroll Consultant is committed to making sure your employees are paid efficiently, accurately, and on time, every time. They take on this role with purpose and know this is a primary support area to streamline your operations.

The average small business owner spends up to 25%

of work time handling employee-related administration, which is time that could be leveraged on strategic development. Every week, BBSI processes payroll for thousands of employees, helping business owners to focus on their goals without the distraction of administrative burdens.

Our relationship with BBSI is a very blissful union - particularly where BBSI provides a solution to our unique payroll challenges. We love the ease and time savings afforded by BBSI's online payroll entry - from the filing of all Federal/State returns to the direct deposits into our employee's accounts at no extra cost - we no longer have late payroll return penalties!"

Nick R.

Professional Transportation Services Inc.

Our technology systems paired with your BBSI Payroll Consultant will help you streamline human resources and payroll processes as your business grows.
