

HOW BBSI SUPPORTS RESTORATION COMPANIES

BBSI has years of experience helping companies in the restoration industry overcome common problems that arise in dangerous and uncertain working conditions. Not only can we support companies across multiple states and jurisdictions, we also support our clients with a local, knowledgeable Business Unit team who can assist with operational efficiency and risk management.

Business owners in the restoration industry spend their days dealing with emergency clean-up along with the unique challenges and safety issues their crews face on each new job. Busy schedules and overworked staff members make it hard for restoration teams to stay proactive with risk management and employee oversight.

BBSI IS HERE TO HELP

ATTRACTING & RETAINING TOP TALENT

Restoration is a competitive industry, making it hard to find and retain employees who can create a positive experience with each customer. When homeowners have the power to choose the contractor they want to hire, the personality of customer-facing employees is the key to turning potential clients into paying customers. BBSI offers targeted recruiting and pre-placement screening to help restoration companies connect with candidates who bring both technical knowhow and customer service experience.

SAFETY

Workers' comp claims for jobsite falls in 2020 cost **\$2.5 billion**. Working conditions constantly change, and restoration teams get exposed to hazardous conditions daily. Crew safety is critical, making it vital for restoration companies to hire experienced team members, and provide PPE and comprehensive safety training. BBSI acts as a safety champion, partnering with business owners and employees to help them shift their company culture to one that prioritizes safety. In addition to on-site safety training, mock audits,

and support for OSHA regulation compliance, BBSI's large network can connect companies with PPE suppliers to guarantee they have access to the safety equipment they need.

WAGE & PAYROLL COMPLIANCE

Ensuring each team member receives the correct pay according to state regulations is critical for staying compliant and avoiding hefty penalties. BBSI gives every client a payroll specialist, helping restoration companies avoid penalties and potential risk related to wage and payroll issues. BBSI's proprietary payroll technology, myBBSI, allows field employees to log hours and breaks from their smartphones. Other services include tools for tracking mileage, reimbursements, and employee documentation.

WORKERS' COMPENSATION

BBSI's unique workers' compensation program gives restoration companies the ability to obtain coverage across multiple states and jurisdictions. The program is also built on a pay-as-you-go model, allowing for premium and class code adjustments within pay periods throughout the year.
